

Online Training

BLOCKCHAIN

WHAT EVERY PROFESSIONAL SHOULD KNOW

2nd May 2020, 1000hrs – 1200hrs

The training will enable participants to critically understand the blockchain technology with a focus on the business value. The program integrates the basic foundational knowledge of blockchain technology with a strategic framework for implementation. The training will help participants understand what blockchain is and how it works, as well as have insights into how it will affect the future of business and develop insights into the critical implementation challenges and strategies.
