

29th STUDENT MANAGEMENT GAMES (SMG 2025-26)

AIMA's Student Management Games is a business simulation-based competition that provides a platform for teams from various institutes to unite and vie for the honor of their college or university. Through collaboration, knowledge, and competitive spirit, participants work together to attain glory for their academic institution.

**Compete,
Experience and
Win Prizes**

A National Competition for the
skills and thrills of running a
company through Business
Simulation

What is Business Management Simulation?

A Management Simulation is an interactive computer-based activity designed to mimic real-world business scenarios. It offers participants the chance to oversee a business encompassing various functional domains. Through this experience, they encounter realistic competition dynamics and acquire invaluable insights into managing it effectively. Participants make strategic business choices and witness their consequences firsthand using AIMA's proprietary software tools, namely 'AIMA BIZLAB EDGE & CHANAKYA'. At its core, Management Simulation embodies the principle of 'Learning by Doing', enabling participants to gain practical knowledge and skills through hands-on engagement.

Who can participate ?

Students enrolled in MBA, PGDM, BBA, B. Com, Engineering, CFA, and equivalent professional programs are encouraged to join. Each institution may nominate a team consisting of up to 3-4 members. No prior experience in business simulation is necessary – simply bring your enthusiasm for learning and a determination to excel.
