

NEW AGE LEADERSHIP WORKSHOP

Saturday, 3rd July 2021
ONLINE

Today's leadership needs to thrive through 21st century's technological disruption & market turbulence. Leadership has been forced to recalibrate, reimagine and redefine mind-sets and business paradigms. The question uppermost in our minds is 'What do we need to stop, start/restart or accelerate?'

You will also discover the 'Anti-Fragile in you and your organisation'. You will also explore and understand the rhythm and swings of the new normal; learn to move from the old world of 'probability' to that of 'possibilities'; move from 'ego-centric' world view to 'eco-centricity'; appreciate the need to not only linearly change, but to holistically transform our beliefs and behaviour, through the use of an interesting tool to learn how to 'stay out of box'; learn about the development principles and anchors of the future skills and competencies.

Key Features :

- Tips from domain experts on Leadership
- Industry experts both from the Private Sector and PSUs
- Simulation-based Workshop for practical first-hand experience in critical decision-making

NEW AGE LEADERSHIP WORKSHOP
