

NEW AGE LEADERSHIP WORKSHOP

Saturday, 13th November, 2021
ONLINE

Today, organisations operate in business environments that are marked by continuous innovations, disruptions, climate changes, shifts in value systems, pandemics, and uncertain economic situations. There is an imminent need to reimagine leadership in this changed scenario as leaders have to adopt adaptive strategies and build new capabilities on the go to identify challenges and opportunities in real time and respond instantly.

This requires a fundamental shift in the thinking and skills of leaders. They must come up with strategies to save, transform and grow the business amid the radical uncertainty. The ability to make strategic decisions to ensure business resilience and agility and lead the way forward to achieve sustainable growth would be the mark of a New-Age Leader.

Workshop on 'New Age Leadership' will be focusing on leadership strategies and decision making skills needed to succeed in a disruptive and ever-changing business environment. This programme will help participants from across sectors and functions to develop business acumen and hone their strategic decision making skills in a competitive environment through interactive sessions with business leaders and Business Simulation Workshop - a technique for developing, testing, and evaluating business strategies in a virtual environment which can manage hundreds of variables simultaneously.

Key Features :

- Knowledge and experience sharing from domain experts on Leadership
- Interaction with industry experts both from the Private and Public Sector
- Being led and moderated by Pranjali Sharma – one of the renowned Economic Analyst, Advisor and Author
- Simulation-based Workshop for practical first-hand experience in critical decision-making
